CUTTING EDGE FABRICATION MACHINES & SERVICE

A MICHIGAN COMPANY

We provide *tailor-made solutions* for specialized machinery applications in Metal Forming, Tube and Pipe Fabrication. Our services span the lifetime of the product—from conception, prototyping, project management and installation to aftersales.

- PLATE BENDING
- ROLLFORMING & WELDING
- TUBE PERFORATING
- BEADING & FLANGING
- TUBE END FORMING
- HIGH PRECISION LATHES
- PRECISION STRAIGHTENING

Precision CNC Roll-forming Machines for Sheet Metal Application and Tube Welding Machines (TIG, MIG, Plasma and Laser)

HAEUSLER
the forming factory

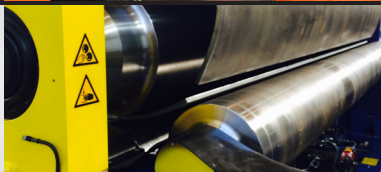

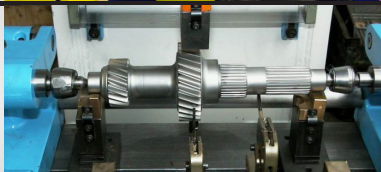

Plate Bending and Angle Rolling Machines, Welding and Assembling Equipment, Pipe and Vessel Production Lines

DUNKES
forming technology

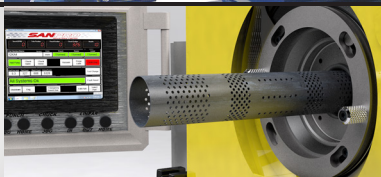

Stroke Controlled Hydraulic and Pneumatic Precision Straightening Presses for Tube and Profiles

Prinzing
MASCHINENBAU

Quality Tube Bending and Flanging Machines, Circular Shears and Rounding Machines for Job Shops

SANDERSON
TUBE PERFORATING SOLUTIONS

CNC Tube Perforating and Louvering Machines

- Turnkey Solutions and Aftersales Services
- Engineered Machinery and Tools for Automotive, Aerospace, Precision, Industrial and Structural Applications
- US Sales & Service Center for Global-Active Brands
